

Environmental Policy Statement

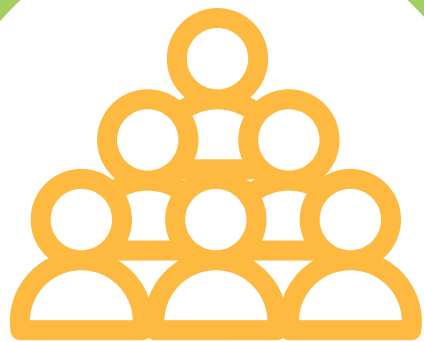

Monitor progress

Setting and reviewing of environmental objectives and targets to continually improve our environmental performance and monitor progress in their achievement.

Suppliers & contractors

A regular review of our suppliers and contractors to have proper regard for our environmental policy and for the goods and services they provide to us.

Respond to the community

We respond sensitively and positively to the environmental concerns of our colleagues, partners and clients, and also the communities through which we operate.

Communicate this policy

Communication of this policy to our employees, suppliers, clients and any other interested parties, seeking partnership from them where necessary to implement it.

Managing impact

We are committed to protecting and managing our impact on the environment, taking into account the nature and scale of our products and services, and sending zero to landfill.

Legislation & ISO 14001

We commit to complying with relevant legislation and other needs including the international standard requirements for ISO 14001.
